INNOVATIVE DAMAGE-FREE TOWING AND RECOVERY SYSTEM

STROPS

DRS75-123	Saber Pro - 3M - 50.000 KG
€ 220,00	

DRS75-124	Saber Pro - 4M - 50.000 KG
€ 235,00	

DRS75-128	Saber Pro - 8M - 50.000 KG
€ 375,00	

DRS75-138	Saber Pro - 8M - 85.000 KG
€ 718,00	

KINETIC ROPES

SBR-4KKIT1	4000KG Heavy Duty Kinetic Recovery Kit
€ 163,75	

SBR-4KRR	4000KG Heavy Duty Kinetic Recovery Rope
€ 124,80	

SBR-12KKIT1	12.500KG Heavy Duty Kinetic Recovery Kit
€ 261,17	

SBR-12KRR	12.500KG Heavy Duty Kinetic Recovery Rope
€ 131,18	

SBR-22KKIT1	22.000KG Heavy Duty Kinetic Recovery Kit
€ 558,75	

SBR-22KRR	22.000KG Heavy Duty Kinetic Recovery Rope
€ 311,39	

SBR-50KRR	50.000KG Heavy Duty Kinetic Recovery Rope
€ 1.121,19	

SHACKLES

SBR-12BRRK1 Ezy-Glide Recovery Ring
€ 131,18

SBR-18KSSB Soft Shackle 18 ton
€ 40,93

SBR-24KSSB Soft Shackle 24 ton
€ 54,57

SBR-40KTSSB Soft Shackle 40 ton
€ 238,16

SBR-60KTSSB Soft Shackle 60 ton
€ 359,63

SBR-16KTSSBL Long Soft Shackle 16 ton
€ 142,00

SBR-24KTSSBL Long Soft Shackle 24 ton
€ 174,00

DOUBLE BRAIDED STROPS

DRS-DBS40-03 3M x 29mm - Double Braided 40T Strop
€ 330,00

DRS-DBS40-04 4M x 29mm - Double Braided 40T Strop
€ 340,00

DRS-DBS40-08 8M x 29mm - Double Braided 40T Strop
€ 570,00

WHAT IS DOUBLE BRAIDED?

Double braided means the rope has a braided sleeve (outer layer) and a braided core (inner layer). This construction delivers superior strength, durability, and performance.

BENEFITS

- HIGH STRENGTH**
Braided core and sleeve work together for maximum strength.
- ABRASION RESISTANT**
The outer sleeve protects the core, extending the life of the rope.
- DURABLE & RELIABLE**
Built to handle heavy loads in demanding conditions.

OUTER BRAIDED SLEEVE
Protects the core from abrasion, UV, and wear.

INNER BRAIDED CORE
Provides the strength and load-bearing power.

DOUBLE BRAIDED

- ✓ Braided sleeve + braided core
- ✓ Stronger and more durable
- ✓ Better resistance to abrasion and wear

SINGLE BRAIDED

- ✗ Braided sleeve only
- ✗ Lower overall strength
- ✗ More prone to wear and core damage

VEHICLE TOWING

DRS-DBS-40-06 Double Braided 40T Strop
6M x 29mm Velcro Rope Guard
€ 515,00

DOUBLE BRAIDED WINCH ROPE

DRS-DBWR14-36 Double Braided 14T Winch Rope
14mm x 36m Black with Last 5M Red & Hook
€ 490,00

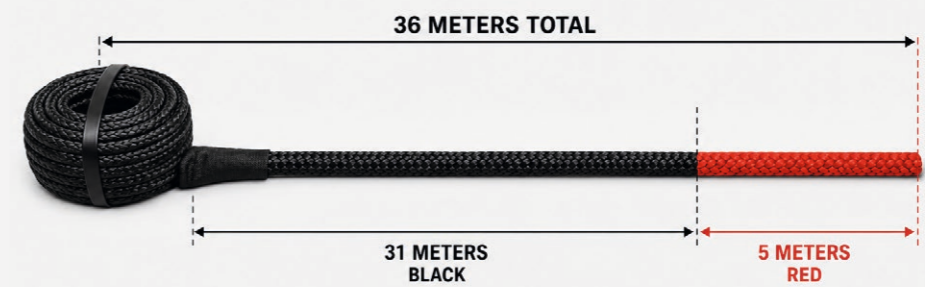

DRS-DBWR20-36 Double Braided 20T Winch Rope
20M x 36m Black with Last 5M Red & Hook
€ 810,00

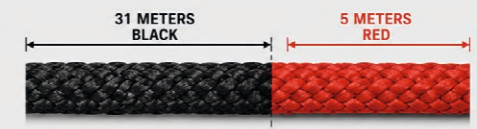

DRS-DBWR45-36 Double Braided 45T Winch Rope
29M x 36m Black with Last 5M Red & Hook
€ 1780,00

WINCH ROPE – 36 METERS TOTAL

31 METERS BLACK + 5 METERS RED

VISUAL END MARKER
The last 5 meters of the winch rope are red for high visibility, so you can easily see when you are approaching the end of the rope during use.

Note: The red 5 meters are at the opposite end of the hook.

Extreme pulling power at minimal weight

Lighter and safer to handle than traditional steel cable, without compromising pulling strength or reliability.

Double-braided construction for maximum durability

The double-braided design enhances abrasion resistance, flexibility, and service life – even under the harshest operating conditions.

Developed for intensive professional use

Designed for daily deployment in heavy recovery operations, lifting applications, and tactical missions.

Safe operation under high loads

Controlled elongation characteristics and high safety factors ensure maximum control during critical operations.

High resistance to abrasion, dirt, moisture, and UV exposure

Manufactured from premium materials resistant to mud, water, sand, oil, and extreme weather conditions.

Faster and safer to use

The flexible construction allows for quick installation and easy handling, even in demanding environments.

Professional finishing for maximum reliability

Reinforced eyes and protected end terminations reduce wear at critical stress points.

Suitable for defense and tactical applications

Engineered for environments where reliability and operational certainty are mission-critical.

DOUBLE BRAIDED LIFTING STROPS

DRS-DBLS-7-3	Double Braided Strop
3M x 28mm	7 Ton 7:1 safety factor, Batch test certificate & CE-label
€ 585,00	

DRS-DBLS-7-4	Double Braided Strop
4M x 28mm	7 Ton 7:1 safety factor, Batch test certificate & CE-label
€ 660,00	

DRS-DBLS-20-5	Double Braided Strop
5M x 42mm	20 Ton 7:1 safety factor, Batch test certificate & CE-label
€ 1410,00	

DOUBLE BRAIDED STRAP

-  **DOUBLE BRAIDED CONSTRUCTION**
Double braided for extra strength, durability, and wear resistance.
-  **STRONG & RELIABLE**
Designed for heavy loads and intensive use.
-  **LOOPS ON BOTH ENDS**
Equipped with strong braided loops for easy and secure attachment.
-  **DURABLE MATERIAL**
Made from high-quality polyester, resistant to UV, moisture, and wear.
-  **SAFE & FLEXIBLE**
Flexible in use and safe for both cargo and users.

ENLARGEMENT
Detail of the double braided construction.

SAFETY FIRST

At Dutch Recovery System, safety is our number one priority. Our synthetic ropes are developed by experts, for experts, with a strong focus on reliability and performance in demanding recovery operations.

All products are tested on our own in-house test bench at our factory in Culemborg and validated in real-world recovery situations. Full traceability throughout the production process ensures complete quality control.

To guarantee consistent quality and safety, production batches are independently tested by certified external testing companies. This combination of practical experience, in-house testing, and independent verification ensures the highest standards for every product we deliver.
